

Translating and Interpreting Services are available at all ACT Government schools

Do you need help to talk to the school or your child's teacher?

Interpreters can be used for school meetings. Show this page to the person at the front office, and the school will help you use the Interpreting Service.

Interpreters can be used to help talk about:

- your child's learning
- questions or concerns
- events, excursions and notes

The school can make an appointment for you to talk together at school with an interpreter.

OR

The school can make an appointment to talk with you and the interpreter on your phone while you are at home.
