Dear Parents/Carers

This week saw P-2 and Year 7 students transition back to face to face learning. It has been a very settled week and in general staff and students have enjoyed connecting with each other and sharing their experiences during their time away from the actual school environment.

I would like to thank parents/carers for their ongoing support and, in particular, with their cooperation at drop off and pick up at the junior site. Working together has enabled the process to be quite smooth and quick. We realise there will be things we can improve on, but please be patient as we refine processes daily. Information has been posted on Seesaw about additional gates being open for both drop off and pick up next week as Year 3 and 4 students return to school. Please remember that if your child walks/rides to school or you have arranged an alternate drop off and pick up points this can still happen.

Staff at Gold Creek are continuing to work on ensuring that we take the positives that have emerged from remote learning and embed these in the way we deliver quality education. We are happy to work with families to support the individual needs of your child/ren.

At the end of this term reports are sent home to families. The Education Directorate are working on information for parents, which will be sent home in the coming weeks. It has been pleasing to see the way students, across the school, have developed their self-management, social, communication, research and thinking skills (Approaches to Learning) over the time of remote learning, which has resulted in some high-quality work being produced.

We hope you have a lovely weekend and look forward to welcoming Year 3, 4 and 10 students back next week.

Regards

Sam Beattie  
Acting Principal  
Gold Creek School
