

Community Connections - Year 6

OUR SCHOOL VISION: We inspire individuals to flourish, embrace challenges and make a positive difference to our world.

Units of Inquiries: How we express ourselves

Central Idea: Mediums are powerful tools used to influence people and provoke change

Line of inquiries:

Exploring real-world issues through the United Nations Sustainable Development Goals (SDGs), students are developing their own Lines of Inquiry under the Central Idea: *"Mediums are powerful tools used to influence people and provoke change."* Students investigate how targeted mediums can inform, persuade, and inspire communities to solve global challenges. Their individual learning journals capture this entire process, showcasing how their research evolves into creative, meaningful action.

How you can help at home?

Discuss with students their exhibition topic and help develop their understanding of how the topic can be addressed at a home, local, national or global level.

Literacy:

- Spelling PhOrMes
- Fluency reading
- Build technical and precise language
- Research skills
- Writing to inform - explanations, reports, brochures, infographics

How you can help at home?

Ask your child about the exhibition topic they are engaging in to help develop clear, objective language and to share facts without emotional bias.

Numeracy:

- Data
- Percentages
- Tessellations
- Order of Operations

This term, students are building the maths they use every day: working out discounts with percentages, reading and questioning data, using tessellations to see how shapes fit together, and following the order of operations so they solve problems accurately.

How you can help at home?

You can help at home by working out sale discounts while shopping, talking about graphs in the news, spotting tessellating patterns in tiles and fabric, and asking "How did you work that out?" Thank you for your support!
